

## SKYORB CABLE CAR CABINS

As the world's first chrome-finished spherical cabins, guests can experience a new era of the Singapore Cable Car featuring glass-bottomed floors and a reflective exterior.

Exclusively designed for the Singapore Cable Car, the SkyOrb cabins sport a futuristic reflective-like exterior, and stand as the world's first chromefinished spherical cable car cabins.

The colour and shape of the cabin represent a breakthrough in cable car aesthetics, one that can only be found in Singapore.

As guests soar above stunning landscapes in the SkyOrb cabins, the glass-bottom floor provides a panoramic view of the Mount Faber Peak, Harboufront, and Sentosa scenery beneath their feet.

At night, a lighted ring surrounds two sides of the cabin windows, casting an illuminating glow that imparts a distinctly futuristic ambience.

Designed and manufactured in Switzerland, each 2.5m tall and 2.3m wide SkyOrb cabin can seat up to six guests comfortably and boost enhanced air ventilation with the introduction of double window louvres at the front and triple windows louvres at the rear.

Seven of these exclusive SkyOrb cabins will join the current fleet on the Mount Faber Line on 20th March 2024, bringing guests to and from Mount Faber Peak and Sentosa.
